Press Release

A 19th-century landmark in the historic center of St. Moritz, adjacent to the iconic Tower of San Maurizio and Chesa Veglia, and with sweeping views of the lake and Swiss alpine mountain range, former Hotel Eden is the new venue for NOMAD St. Moritz 2024. It is being renovated and hence a work in progress, almost an archeological investigation unveiling the different layers of history in an elegant, raw manner. Here, established galleries and cutting-edge artists and designers from around the world will converge to create a poetry of space.
